86 THE WORLD OF BOEN

DEAR FRIENDS OF PARQUET,

2015 was a very intensive and successful year with our "Style Advisor" concept proving to be a big hit with our customers around the world. With clearly defined styles "Pure Nordic", "Modern Rustic", "Classic Elegance" and "Urban Contrast" which inspire and advises the end consumer whilst meeting the high standards expected of today's interior furnishings. We want to continue in this direction and work in a committed and consistent manner to ensure that customers are informed about the latest interior design trends, as well as inspire them for our products.

Our blog on boen.com has been very positively received and our various contributions on social media channels are being followed by a fast-expanding fan community. Feel free to take a look for yourself.

To help you when it comes to advising your customers, we have created new images of our hardwood flooring which are presented in a new main catalogue. This means you can use the fantastic images of our four styles to present our hardwood flooring in all its beauty to your customers. Take advantage of this opportunity and supply a catalogue to your customers.

We have been inspired by the Milan furniture trade fair, Salone del Mobile and have developed new flooring colours in collaboration with trend experts that offers the perfect platform for upcoming colour trends and current 'it' items.

We have increased the Stonewashed Collection to include a wonderfully bright colour and several cosy dark shades.

This has resulted in creating floors full of character for the popular styles Pure Nordic and Urban Contrast.

When the new Live Pure surface was successfully launched in the market, we now take the occasion to expand the product range. From April, we will offer a very puristic ash, subtle grey oak planks, luxurious walnut floors and some oak longstrip flooring in this new natural oiled surface look.

We look forward to enjoying another successful business year together with you!

Best wishes,

GEIR WÅLAND
President of the BOEN brand

ADVANCED TECHNOLOGY AND HIGH QUALITY

As an experienced parquet flooring company with a long tradition we always offer you wooden parquet floorings of high-grade quality and advanced technology.

BOEN QUALITY

We produce parquet flooring with top level of quality. And the process of developing new technology or increasing range of products never stops. With monitoring system that checks every aspect of production, we are so sure our production meets highest standards of quality, that we give our customers 20 year warranty.

Underfloor heating

Want to use BOEN wooden floors with underfloor heating? No problem! BOEN hardwood flooring is an ideal floor covering to place above underfloor heating system. Our floors have efficient thermal conductivity and lets you enjoy comfort of warm floor. For best heat transference we recommend gluing floors instead of using a floating system.

Different installation possibilities

Glued, nailed or floating? Parquet can be installed on most types of flooring. Problems such as uneven sub-flooring, moisture, sound proofing etc., can be resolved with the help of technical expertise from BOEN's sales and service team.

For more information, please refer to your parquet installer or our BOEN sales team.

We ensure our floors are top quality by giving our customers a 20 year warranty.

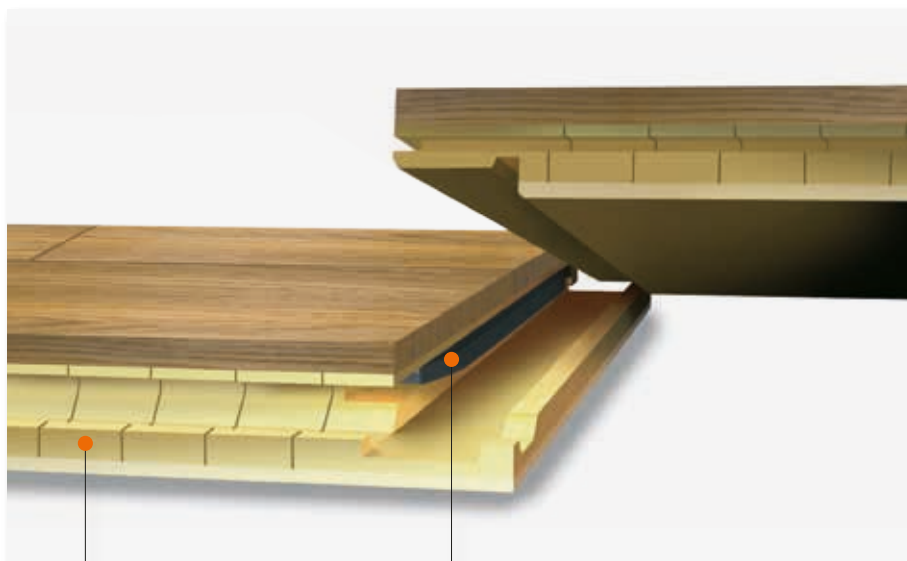

We work hard not only to maintain high quality of our production, but we also keep on looking for ways to improve.

BOEN X-PRESS – THE RAPID LOCKING TECHNOLOGY

Take advantage of the BOEN X-press lockingsystem on the short ends of the boards of all BOEN Clic products.

- › A quicker and easier way to install single boards without tools
- › Significantly reduces installation time
- › The clear Clic sound lets you know when installation is complete
- › Also suitable for full-surface gluing onto the sub-floor

On the long side of the board, BOEN uses the regular Clic system.

BOEN X-press: When pressing down on the board, the flexible tongue will lock and make the "single action" movement possible.

PRODUCTS**

Wood is a natural product. Some types of wood – beech, for example – have a relatively calm grain. Others, like oak, are rich in structure, with a spectrum of calm to rustic. We offer a wide selection for you to choose from.

	CALM	LIVELY	RUSTIC
Adagio, Select			
Andante, Nature			
Basic, Concerto, Contract, Finale			
Animoso, Bellevue, Country, Forte, Rustic			
Marcato, Baltic, Traditional			
Canyon, Vivo			

Wood is a product of nature – each tree has its own structure and individual colour combination. An image or a sample will therefore never be able to give you a complete picture of the finished floor. Please also note that the colour may change when exposed to light. As a guideline, darker wood species will get a more golden tone, whereas lighter species will become slightly darker. Cracked knots are filled with putty, the occurrence of small gaps between the putty and wood may appear.

CALM

Consistent growth; only small knots; standing or lying yearrings.

LIVELY

Natural grading with small to medium knots; a limited spectrum of colours due to sapwood.

RUSTIC

Structure and vivid growth; larger knots, sapwood and heartwood; a rich spectrum of colours.

LONGSTRIP

The classic among the parquet floorings. The varied pattern provides a lively and modern look and is excellently applicable for different room situations.

Available in two formats

BOEN Stonewashed boards are available in two formats: As classic plank boards of optimum width and length ratios – as well as broad and exclusive Castle boards for a spacious room effect.

Harmonious look: Skirting boards made from BOEN parquet

We manufacture skirting boards in almost every finish in the BOEN product range. You can find skirting boards in Stonewashed Collection colours on page 57.

Stonewashed Collection 138, 209 mm

23

- Earth colours and high-contrast structures constitute the effect of this range of products
- All Stonewashed products are equipped with a micro bevel on the longitudinal side
- Only entire lengths of 2200 mm are supplied for 209 mm width
- Dimension: Plank: 14 x 138 x 2200 mm
Plank Castle: 14 x 209 x 2200 mm
Top layer: ca. 3.5 mm

FASHION COLLECTION

Anything but ordinary. The colouring and texture of the oak surface in our new Fashion Collection are both fascinating and inspiring. Exclusive plank floors for trend-conscious furnishing styles.

Oak Sandy Grey, Plank Castle

DOP 4658
-1.1-07.2015

Plank Castle 209 mm

A new take on oak planks

The elaborate wood structure and colouring of the surfaces make the 209 mm wide planks in the Fashion Collection the best possible choice for interior designs that are both exclusive and unique. Exquisite oak is planed, sanded and brushed in numerous steps. The texture is emphasised with stain or coloured oil, before the surface is finished with our Live Natural.

Tone in tone

For a harmonious overall surface appearance, we recommend skirting boards in the Fashion Collection colours. See page 57.

Fashion Collection 209 mm

- Exclusive 209 mm oak planks with special surface finish, available in a wide range of colours
- Easy and quick to install with BOEN X-press
- Only entire lengths of 2200 mm are supplied
- All planks with bevel
- Dimension: 14 x 209 x 2200 mm
Top layer: ca. 3.5 mm
Middle layer: 8.8 mm
Bottom layer: 1.7 mm

BOEN X-PRESS

Type of wood	Features	Live Natural		
		Article no.	€/m ² Net price	Bevel
Oak White Nights	Very deep brushed planks with black-filled knots. White natural oil penetrates deep into the wood structure and creates a pale appearance.	SBGVVMFD	91.90	2V
Oak Shabby Cream	A cream stain brings out the grain of the planed surface. The surface is oiled with Live Natural.	SCGV4MWD	104.25	4V
Oak Golden Valley	At first glance it just looks like an exclusive oak plank. But touch it, and you will be surprised. The planks are lightly planed in a wave pattern.	SIGV4KWD	101.25	4V
Oak Indian Summer	Very deep brushed oak planks with black-filled knots.	SAGVVKFD	88.90	2V

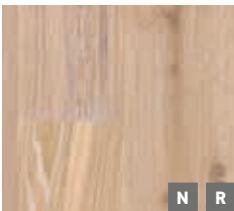

INFO

1 package = 6 elements = 2.76 m² = 24 kg, 1 pallet = 50 packages = 138 m².

We only deliver whole lengths, without slotted top layers. We can only deliver complete packages.

Due to the plank grain, small, unfilled depressions or fissures may be present. These are part of the surface character.

CHALET AND CHALETINO

Large and impressive rooms in private or public buildings invite you to make a special feature of the floor. Chalet and Chaletino are perfect for this task: exceptionally large formats in all three dimensions, and individually cut so that each floor ensures that a room is presented in its best light.

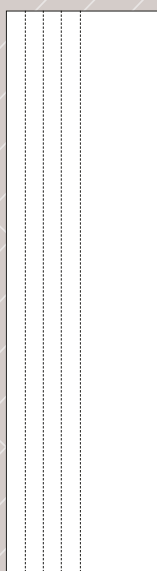

Oak Traditional, Chalet

DOP 4658
-1.1-07.2015

Plank Chaletino 300 mm

Plank Chalet 200 - 395 mm

Chalet

BOEN Chalet boards are individually manufactured. We develop a proposal for the optimum composition of different board widths and lengths according to your room drawing. Only after your confirmation and the confirmation of your customer we start the production of these valuable boards.

Chaletino

The attractive planks measuring 2750 mm length by 300 mm width accentuate the size of large room situations. The 1 mm x 45° micro-bevel on all 4 sides emphasises the generous length and width of these large planks.

BOEN Chalet 200–395 mm

- The stable 3-layer structure has an oak wood top layer with a thickness of about 4.5 mm. The noble top layer originates from valuable oaks grown in the Baltic States with an age of 150 to 200 years
- BOEN Chalet boards are safely installed with the classic tongue and groove connection. All items are equipped with a four-sided bevel
- Filled knots slightly subjacent
- Dimension: Top layer: ca. 4.5 mm
Width: 200/ 250/ 300/ 350/ 395 mm
Length: 2000 - 4000 mm
Board thickness: 20 mm

SOLID PLANK

*Enjoy the fascinating properties and the longevity of real solid boards:
a warm and vital room feeling and a high-quality ambiance.*

Oak Traditional, Solid Plank, 137, 162 and 187mm

**DOP 4658
-1.1-07.2015**

Solid plank 137 mm

Solid plank 162 mm

Solid plank 187 mm

Personal style

Dare to choose flooring with strong personality: Solid wood with special surface treatments give a distinctive appearance of years of wear. The use of dark stain or colour-pigmented oil creates a unique floor where the annual rings in the wood are accentuated. Our solid floors have a rustic grading, knots and cracks are plugged and filled using genuine handwork.

Genuine and individual

We offer our solid planks in three different widths ranging from 137 to 187 mm. Our tip: install a mix of all three dimensions in your house. This will enhance the beautiful look of these planks.

Solid plank

137, 162, 187 mm

35

Individual variety

Our collection of 2-layer wooden flooring includes classic products such as Prestige, Traffic and Maxi for the creation of traditional patterns. A collection that always provides the perfect real wooden flooring for both private living areas as well as high-traffic properties.

With our Finesse and Noble board formats we offer a wooden floor which, thanks to its limited height, is perfectly suitable for use in existing constructions. This means that exclusive board patterns can be placed with smooth transitions to adjoining areas.

Prestige 10 mm

- The creative design solution with left-hand and right-hand strips for installation of individual patterns
- Ideal for the renovation of living rooms and working areas thanks to its low height of only 10 mm
- Prestige is directly glued on the subfloor
- Dimension: 10 x 70 x 590 mm
Top layer: ca. 3.5 mm
Bottom layer: 6.5 mm spruce

FINESSE

*A small but exquisite plank format.
Classic oak, modern refined oak surfaces,
or utterly exclusive walnut.*

Oak Honey, Finesse

* Oak Smoked with Live Natural
in preparation

DOP 4658
-1.1-07.2015

Finesse 1350 mm

Special-format planks

The dimensions of Finesse planks are attractively unique. Although the surface is reminiscent of a classic plank floor, the smaller size of Finesse planks creates an attractive surface that is much more vibrant. Two layers on a pine base are covered with a real wood top layer, creating an overall installation height of just 10.5 mm. Perfect for existing buildings.

Finesse 10.5 mm

- › The exquisite Finesse plank with its two-layered structure, available in special lengths and widths
- › Bottom layer: spruce
- › Glue down directly to the subfloor
- › Dimension: 10.5 x 135 x 1350 mm
Top layer: ca. 3.5 mm
Bottom layer: 7 mm spruce

NOBLE

A typical plank with a two-layered structure that is anything but typical. The oak planks come in a wide range of fascinating, elaborately finished surfaces.

Oak Adagio, Noble 178 mm

**DOP 4658
-1.1-07.2015**

Exclusive planks

Noble combines the large-area and continuous top layer of typical planks with the advantage of an unusually low installation height. Noble is just 9.7 mm thick, making it the excellent choice for renovations. Same-level transitions to neighbouring rooms with tiled or carpeted floors can be created without any problems. Noble is also ideal for taking advantage of the low installation height in new buildings with open plan rooms. A same-level transition from elegant hardwood flooring in the living area to the tiles of your choice in the open kitchen can be achieved without any problems.

Noble 9.7 mm

- Planks in genuine country house format, particularly good for refurbishments
- Noble has an HDF-reinforced base and offers superb dimensional stability
- Available in two widths: 136 and 178 mm
- The planks have a standard (2V) bevel down the long sides
- Dimension: 9.7 x 136/ 178 x 2200 mm
Top layer: ca. 2.8 mm
Bottom layer: 6.9 mm HDF

WHAT'S YOUR VENUE?

Your venue. Your floor.

A durable and beautiful floor is the heart of any sports and recreational venue. In BOEN, we are dedicated to make hardwood floors that are made to match the specific needs and activities of your venue. Our floors are produced in Europe, and conform to the European standard EN14904.

STUDIO & GYM

A studio or a gym is the home of pulsating beats, passion and fun. A place where people come to challenge themselves. We know that the right atmosphere and comfort is crucial for a good workout. With our solutions you get the natural beauty of wood combined with high performance, flexibility and for room renovations a quick turnaround.

HOTEL & HEALTH

Lower your pulse and enter a venue of comfort and elegance. When aesthetics matter, the wooden surface creates a calm and natural atmosphere. Choose between several natural colours to create an experience that fits with the overall architecture and interior style of your hotel, spa or health centre.

EDUCATION

Young children and active youths deserve a sports venue that motivates, stimulates learning and playing. Part of growing up means testing out numerous different sports and activities, which requires a durable floor system optimised for multi-purpose use – from the PE class to the school play. A sports floor with good bounce, good friction and progressive shock absorption will care for students to enjoy sports and activities.

ARENA

A sports arena is recognised by great experiences and a wide variety of events. Large open spaces require the extreme stability and heavy load strength offered by our premium hardwood floor systems. Sports floors that can also accommodate rolling loads, uneven levels of sub-floor or different building heights – tailored to your needs.

Boflex

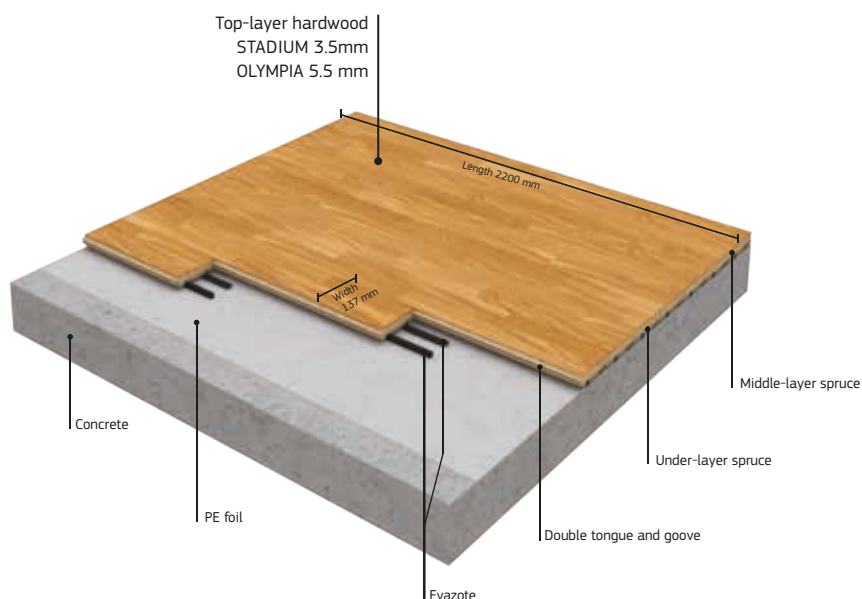

- > The premium area-elastic floor system for high level performance. With unique progressive shock absorption, Boflex offers uniform performance for adult professionals as well as young athletes. The construction can withstand an almost unlimited weight load and is extremely stable.
- > floating installation on even sub-floor, e.g. screed.
- > Top layer BOEN parquet flooring with double tongue and groove profile and bottom elastic strips*
- > Boflex Stadium Construction height: 28.0 mm
Dimension: 28 x 137 x 2200 mm
Top layer: ca. 3.5 mm
- > Boflex Olympia Construction height: 30.0 mm
Dimension: 30 x 137 x 2200 mm

ACCESSORIES

BOEN offers a wide range of accessories – from insulating underlays, skirting boards made from BOEN parquet and profiles right through to stair nosings. The key to keeping hardwood flooring looking pristine over the years is to ensure that it is cleaned and cared for correctly. With this in mind, we offer a comprehensive range of care and cleaning products.

HOW TO CHOOSE YOUR FLOOR

There are various aspects to consider when choosing a floor. We have defined the four steps below to help you choose which floor suits you best.

1

CHOICE OF STYLE

Most of us do not really fit only one style. But looking through the four styles we have defined in our catalogue, you might find you are more prone towards one style than the others. To help you find your flooring, we recommend that you consider which style you are striving to achieve. Which style makes you feel the most comfortable and at home?

PURE NORDIC

MODERN RUSTIC

URBAN CONTRAST

CLASSIC ELEGANCE

2

CHOICE OF COLOUR

Each type of wood has a distinctively characteristic colour. The BOEN product range contains a large choice of colours to suit a diverse range of furnishing styles. Our products are available in a comprehensive choice of shades ranging from light to dark.

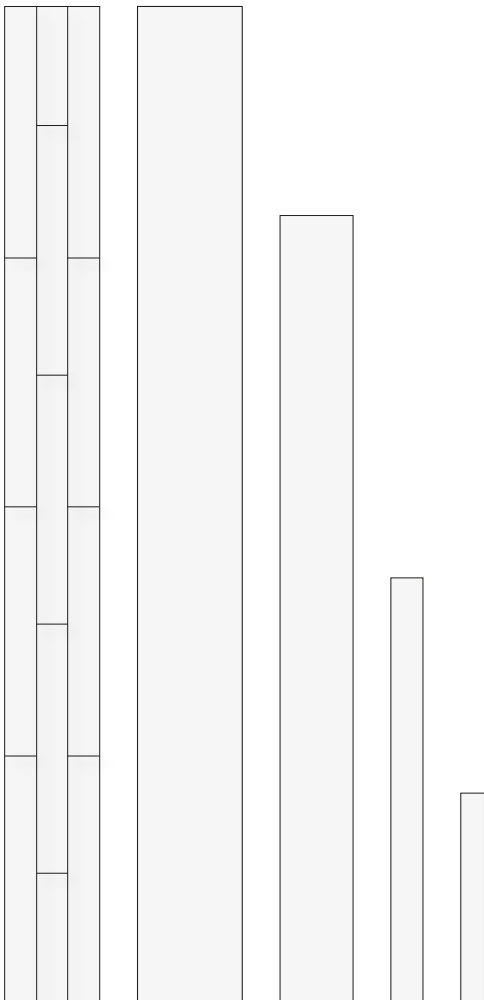

FIND THE FLOOR OF YOUR DREAMS

You can experience the impression created by your chosen floor in our digital showroom at www.boen.com/en/products

3

CHOICE OF FORMAT

The impression created by large rooms is further enhanced by the use of large planks. Or you can choose classic 3-strip boards that enhance the natural variety of colour for each type of wood. And last but not least the one-strip formats of our 2-layer range are perfect for installing in various patterns. Please also refer to page 84.

4

CHOICE OF SURFACES

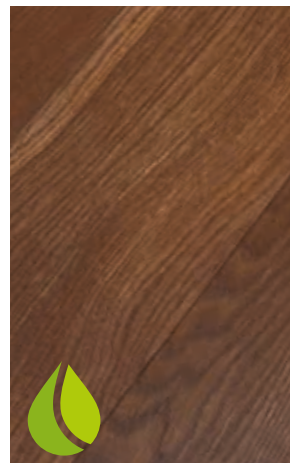

Oil-treated floors emphasise the character of the wood and give the hardwood flooring a very natural feel. Lacquered surfaces are easier to care for. You can choose a glossy lacquer or matt lacquer depending on your wishes. Please also refer to page 88.

4 styles in the
BOEN style handbook.

4
STYLES

1

2

PURE NORDIC

Clean lines in light, airy rooms. The look is simple, elegant and natural. No unnecessary detail or ornaments, no unruly quirks or strong colours. The rooms provide peace and quiet. The interior is functional and minimalist. White dominates, but the look is far from cold. Warm woodwork in blond tones brings nature inside, and creates playful surfaces.

This style is inspired by the Nordic summer light and proximity to nature. It brings lightness and radiance to a long, dark winter, and the senses are filled with quality and harmony.

MODERN RUSTIC

Welcome back to the authentic and the real! This style takes us back to country life in the good old days, while retaining a modern look. The materials are rough and natural: rustic woodwork, linen, cotton and rattan together with modern and more masculine elements. But the main look is feminine, warm and summer light.

The colour palette is neutral and soft, with ample greys, pastels and powder blues. Nostalgia is combined with steel and industrial objects - and the style is transported to our modern lives.

Did you know that the floor is the largest furniture in a home? It therefore plays an integral part in creating a consistent interior style. Together with the interior style expert Helle Tjaberg we have selected four major style groups, and divided our extensive assortment of hardwood floors into each style. The aim is to provide inspiration and advice on how to succeed in creating an interior that suits your personality.

URBAN CONTRAST

Break the rules! Mix and match! The interior is full of contrasts, but a cosy warmth remains the constant backdrop to whimsical ideas. Earthy and playful, functional and creative. The designers have been inspired by the past but have broken all the established rules and have played with shapes, colours and graphic patterns.

Organic lines and materials such as fibreglass and plastic are typical. The same applies to the combination of warm earthy tones with strong, bright colours. The look is fresh, modern and personal.

CLASSIC ELEGANCE

You can sense the historic roar of the ancient Romans and Greeks. The style is refined, symmetrical and elegant, but with a modern touch that allows for creative breaks and unexpected detail.

Order, beauty and classic lines set the scene, with a timeless quality in furniture and design that has been around for generations. A blend of classic and new design adds personality to each room. And the colours are inspired by nature: earthy tones, deep green, red and navy – together with greys and beiges.

2-LAYER PARQUET

SOLID FLOORS AND 3-LAYER PARQUET

*BOEN performance classifications:

Depending on the field of application of our parquet floorings it is subject to different stress and wear. The Brinell hardness of the wood, the width of the boards, the structure, the thickness of the top layer as well as the surface treatment (sealing or oil treatment) are significant for the stability and durability of your flooring.

Performance classification 1 = normal

Hardwood floors in living areas subject to normal usage. Exception: Wet areas and entrance areas.

Performance classification 2 = medium

Hardwood floors in living areas, in administration, meeting and conference areas, kindergartens, consulting rooms etc. subject to average usage.

Performance classification 3 = heavy

Hardwood floors in heavily frequented areas such as shops, restaurants, entrance areas, schools, conference halls, dance halls, etc.

2V bevel:

Bevel on longitudinal side of the board (total of 2 on one board).

4V bevel:

Bevel on all 4 sides of the board.

01 ECONOMY

Dimensions:
9.5 x 70 x 470 mm

Tongue/groove

Fields of application: With a top layer of 2.5 mm, Economy offers cost-efficient access to classic strip hardwood flooring. Only right-hand strips.

Types of installation: Glue down to subfloor.

Floor heating systems: Very suitable.

Performance classification*: 1–2

Fire protection classification: Dfl-s1

Top layer: approx. 2.5 mm

02 TRAFFIC 03 PRESTIGE

Dimensions:
Prestige: 10 x 70 x 590 mm, Traffic: 12.5 x 70 x 590 mm

Tongue/groove

Fields of application: For installation of designs and patterns. With a top layer of approx. 5.5 mm Traffic is particularly appropriate for use in highly frequented areas. Including left and right strips. Bottom layer made of spruce.

Types of installation: Glue down to subfloor.

Floor heating systems: Prestige/Traffic: very suitable.

Performance classification*: Prestige: 1–2 / Traffic: 3

Fire protection classification:
Oak Traffic: Cfl-s1. All other wood species for Traffic and Prestige: Dfl-s1.

Top layer Prestige: approx. 3.5 mm

Top layer Traffic: approx. 5.5 mm

04 MAXI

Dimensions:
10.5 x 100 x 833 mm

Tongue/groove

Fields of application: Classic 1-strip product of outstanding dimensions. This format is longer and wider than common 1-strip products. The model with its exclusive effects is ideal for large floor surfaces. Standard: right-hand strips. Left and right strips on request.

Types of installation: Glue down to subfloor.

Floor heating systems: Very suitable.

Performance classification*: 1–2

Fire protection classification:
Dfl-s1

Top layer: approx. 3.5 mm

05 FINESSE

Dimensions:
10.5 x 135 x 1350 mm

Tongue/groove

Fields of application: A single-strip product whose dimensions nearly create the impression of a plank. Its low installation height of 10.5 mm makes Finesse the perfect solution for refurbishment/renovation projects. Bottom layer made of spruce.

Types of installation: Glue down to subfloor.

Floor heating systems: Very suitable.

Performance classification*: 1–2

Fire protection classification: Dfl-s1

Top layer: approx. 3.5 mm

CHOICE OF FORMAT

06 NOBLE

Dimensions:
9.7 x 136/178 x 2200 mm

Tongue/groove

Fields of application: The 2-layer plank is perfect for renovation purposes. The attractive plank format fits very well to big rooms. Bottom layer made of HDF. Bevel on the longitudinal side (2V).

Types of installation: Glue down to subfloor.

Floor heating systems: Very suitable.

Performance classification*: 1–2

Fire protection classification: Dfl-s1

Top layer: approx. 2.8 mm

07 SOLID PLANK

Dimensions:
20 x 137, 162 or 187 x 800–2220 mm

Tongue/groove

Fields of application: Solid floors are fascinating by their original character and by their durability. Bevel on all four sides (4V).

Types of installation: Glue down to subfloor or nail/screw.

Floor heating systems: Suitable up to 137 mm.

Performance classification*: 3

Fire protection classification: Cfl-s1

08 3-STRIP

Dimensions:
3-strip 14 x 215 x 2200 mm

BOEN X-press

Fields of application: The classic among the parquet floorings. For a lively and diverse appearance. Appropriate for lots of room types.

Types of installation: Quick and easy floating installation without glue and glue down possible.

Floor heating systems: Suitable to very suitable.

Performance classification*: 1–2

Fire protection classification:
Cfl-s1 and Dfl-s1 depending on wood species and surface treatment.

Top layer: approx. 3.5 mm

09 STRONGLINE 21 MM

Dimensions:
2-strip: 21 x 139 x 2200 mm

Tongue/groove

Fields of application: Our strong longstrip with approx. 5.5 mm top layer, designed for public areas in highly frequented rooms (restaurants, hotels, exhibition rooms, etc).

Types of installation: Glue down or self-supporting floors which are installed on sleepers.

Floor heating systems: Suitable.

Performance classification*: 3

Fire protection classification: Oak: Cfl-s1, other types of wood: Dfl-s1

Top layer: approx. 5.5 mm

10 PLANK 138

Dimensions:
14 x 138 x 2200 mm

BOEN X-press

Fields of application: Our classic plank boards of optimum width and length ratios for an attractive look of the room over the whole surface. All oak planks with bevel.

Types of installation: Floating installation or glue down to subfloor.

Floor heating systems: Suitable to very suitable.

Performance classification*: 1-2

Fire protection classification:
Cfl-s1 and Dfl-s1 depending on wood species and surface treatment.

Top layer: approx. 3.5 mm

11 PLANK 181

Dimensions:
14 x 181 x 2200 mm

BOEN X-press

Fields of application: An exclusive variation on a plank floor with a width of 181 mm that is particularly effective in larger rooms.

Types of installation: Floating installation or glue down to subfloor.

Floor heating systems: Suitable to very suitable.

Performance classification*: 1-2

Fire protection classification:
Cfl-s1 and Dfl-s1 depending on wood species and surface treatment.

Top layer: approx. 3.5 mm

12 PLANK CASTLE

Dimensions:
14 x 209 x 2200 mm

BOEN X-press

Fields of application: Plank boards with an exceptional width for particularly spacious room effects. Micro-bevel on the longitudinal side or circumferential bevel (2V/4V).

Types of installation: Floating installation or glue down to subfloor.

Floor heating systems: Suitable to very suitable.

Performance classification*: 1-2

Fire protection classification:
Cfl-s1 and Dfl-s1 depending on wood species and surface treatment.

Top layer: approx. 3.5 mm

13 CHALETINO 14 CHALET

Dimensions:
Chaletino: 20 x 300 x 2750 mm
Chalet: 20 x 200/250/300/350/395 x 2000-4000 mm

Tongue/groove

Fields of application: With extraordinary formats these boards are very highly appropriate for noble rooms. With bevel on all four sides (4V).

Types of installation: Glue down to subfloor or nail/screw.

Floor heating systems: Suitable.

Performance classification*: 2-3

Fire protection classification: Dfl-s1

Top layer: approx. 4.5 mm

STEP

4

CHOICE OF SURFACES

BOEN places considerable emphasis on protecting the environment during all phases of production. Neither lacquer nor oil emit gases which are harmful to humans or to the environment. BOEN offers its customers a wide range of surface finishes.

LIVE PURE

Live Pure is the new innovative product development from BOEN: Oak planks with Live Pure surface treatment have a very natural look with ultra matt finish and very good protective characteristics. Live Pure protects the floor from dust, dirt and liquids thanks to a special treatment applied to the surface which leaves the look of the hardwood floor smooth, clear and naturally light – almost like untreated wood.

NEW

LIVE MATT LACQUER

This 6 layer Live Matt sealing with a very low gloss level makes the surface look “as oiled”. A natural look combined with the advantages of a scratch-resistant finish.

LIVE SATIN LACQUER

Very hard-wearing factory-applied 6 layer silk finish considerably reduces the care requirements and increases the durability of the parquet floor. Live Satin is cured by UV light and does not emit any dangerous chemicals or gases.

LIVE NATURAL OIL

Live Natural is a natural surface treatment containing oils such as sunflower, thistle or soya bean oil as well as naturally occurring waxes (carnauba, candelilla). Deep penetration of the oil into the wood is ensured by two-time application on a custom-made production line. The wood pores are saturated, and drying takes place completely naturally in the open air during a process known as the Air-Plus Process. The floor is ready-to-use right after installation and has extremely good protection properties against liquids compared to competitive products.

ENVIRONMENTAL PRINCIPLES

Hardwood flooring is a natural product. As a company that works wood, BOEN has been entrusted with upholding an important legacy.

WE TAKE CARE

It is by constantly engaging in dialogue with environmental protection agencies and organisations and by investing in new production technologies that we are able to ensure careful use of this precious resource. More than 95 % of all our raw materials are sourced from sustainably managed European forests that are already certified according to systems such as FSC™ or are working towards certification.

Oak is an extremely flexible raw material. It has endless possibilities regarding surface treatments, and this create unique colours and expressions.

CERTIFICATES

Across the globe, *the Forest Stewardship Council, FSC™*, promotes an approach to forest management that is environmentally appropriate, socially beneficial and economically viable. The companies within the BOEN Group have implemented a chain-of-custody system in accordance with the standards of the FSC and are able to supply FSC-certified products. BOEN supplies products with the FSC Mix label. We hold the following licences: BOEN Bruk (Norway) FSC™ C051117, BOEN Parkett Deutschland (Germany) FSC™ C101713, BOEN Lietuva (Lithuania) FSC™ C021510, BOEN UK FSC™ C047288, BOEN US FSC™ C095158. www.fsc.org, FSC – The mark of responsible forestry.

The Rainforest Alliance works to conserve biodiversity and ensure sustainable livelihoods by transforming land-use practice, business practices and consumer behavior. www.rainforestalliance.org

The Real Wood logo is administered exclusively by authorised manufacturers belonging to the European Federation of the Parquet Industry (FEP). The decision in favour of real wood owes ecological benefits. To manufacture, work and store wood one needs considerably less energy than for other materials.

The **conformity mark** guarantees high standards of structural quality by testing and certifying construction materials in respect of their technical, ecological and health-related properties. Thus guaranteeing home owners a healthy climate, and stockists and fitters product safety and transparency.

Products with the *Der blaue Engel* (Blue Angel) seal of quality contain very low levels of emissions in order to ensure a healthy indoor climate.

ENVIRONMENT-FRIENDLY

Why choose multilayer hardwood floors?

Multilayer hardwood flooring is always an environmental-friendly decision. Compared with solid floors, multilayer hardwood flooring needs less hard wood. The amount of hardwood that is needed to manufacture one solid floor is sufficient for six multilayer hardwood floors.

Natural hardwood layer

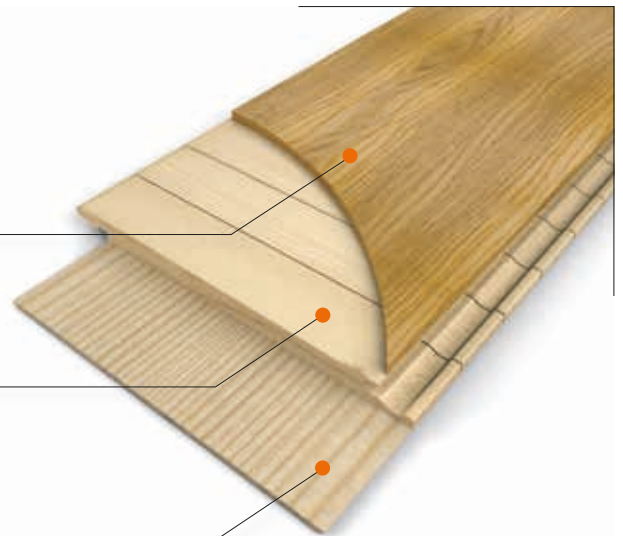

There is a choice of more than 13 types of wood for the sturdy top layer. The various surface treatments underline and accentuate the grain of the wood, each in their own unique way.

Middle layer

The middle layer consists of carefully selected wooden slats from quickly replenishable spruce trees. Vertical or semi-vertical annual growth rings ensure a high level of dimensional stability.

Bottom layer

The bottom layer is made from a single piece of spruce veneer and ensures a stable counter draw.

BOEN VALUES

BOEN is known for a long and proud tradition of craftsmanship, based on respect for nature's resources. As a major international supplier of high-end hardwood flooring, we have also made a commitment to inspire and guide the consumer to achieve a consistent interior style. That is why we are guided by the following values:

1

INNOVATIVE MADE FROM DIVERSITY

BOEN is an international company and we recognize that people are different, with different styles and habitat. We dare to challenge, lead on and think differently in our effort to help our costumers fulfil their personal interior style.

2

INTERIOR CONSCIOUS

We know that the goal when making a floor investment is not a merely beautiful floor – but a beautiful home. Consequently we strive to offer the consumer updated inspiration and advice that make the interior decorating process easier – and more fun. We are conscious of interior style and design and are constantly monitoring upcoming trends.

3

END USER ORIENTED

In BOEN we are careful not to distance ourselves from our customers and consumers. We understand trends and development in architecture, style, fashion and interior, and have the know-how on how to translate this to real-world needs.

WHAT CAN WE DO FOR YOU?
