#### INFORMATION

# Dear Customer,

## Welcome to our brand new BOEN pricelist!

We certainly have several New product collections to introduce to you; however, it is equally important to see an increasing interest among customers in making reasonable and environmentally friendly choices in daily life.

In today's times most of us prefer renewable products and resources - which do not harm our environment, neither during production or throughout its use. We want to manage the natural resources for future generations so they can sustain themselves.

At BOEN we work exclusively with one renewable resource - trees!

All the trees utilised in our production are from sustainable areas around the globe, with great emphasis on complying with applicable laws and regulations. We would actually claim that we bring a "new life" to trees. Instead of a tree rotting in the forest, it would be cut down before it ages and rots - and will, for example, be transformed into a beautiful parquet flooring. Imagine - many parquet floors are kept for 20 or 30 years. We call that a new life!

In terms of product news, our focus is on further development of products with our unique Live Pure Surface. For those of you who do not already know Live Pure - in short, it is a surface that retains the natural colour of the tree with an unsurpassed durability. Live Pure also has a deep brushed matte surface. New colours of the year are obviously mirroring the recent trends, with 5 new colours in grey or brown colour tones. We believe these colours will be well received by the consumer. You can read more about these on page 4.

New for this year is the herringbone pattern that is laid by clicking the floorboards together (5G Click) - BOEN Herringbone Click.

We are proud that this product was developed in close collaboration with Vällinge, and we therefore guarantee a high quality product.

The floor can be laid without using glue, floating method for both for the professional floor layer as well as a handy do-it-yourself customer.

The product will have a 4-stage phase, and the first step is to launch a Live Nature (oiled) surface.

Go to page 5 to read more!

For those of you who already know us, we hope you have noticed our new BOEN «look». We have certainly retained our core values "YOUR STYLE. YOUR FLOOR.", while renewing our visual profile in line with the new, digital communication channels we all face in the coming years.

Also, in this year's Pricelist you will notice additional article code next to each of the product. We are unifying our accounting systems throughout the entities, and due to this, the article handling will be changed in 2020. This is a transition year, and we hope this double article solution will help you ease in to the new logic.

On behalf of all of us at BOEN;

Best of luck when choosing your new flooring - Remember - you're giving a tree a new life if you choose a parquet flooring!

A handwritten signature in black ink, appearing to read 'Geir Wåland'.

GEIR WÅLAND  
*President of the BOEN brand*

# 2019 What's new?

## *Chaletino – better than ever*

We are proud to announce the launch of our Chaletino series of floors that are now available in a 15mm thickness, improving installation where floor height is an important factor and giving improved efficiencies when underfloor heating is used. Make sure you check them out!

## *New colors in Live Pure*

Following the successful launch of our innovative and award winning surface treatment Live Pure, we have focused our development during 2018 to expand the colour range for our customers by developing five new exciting colours. You will find these products marked with the "new" icon in the following pages.

## *Styles icons*

Throughout this pricelist you will find our products marked with the style symbols (below), which indicate an interior style that a particular floor matches the most. Here is what each symbol represents:

Detailed information about features of these styles, please refer to our webpage at [boen.com](http://boen.com)

**N**

**Nordic** - Clean lines.  
Space and tranquility

**R**

**Rustic** - Authentic  
ambience rooted in history

**U**

**Urban** - Strong personality.  
Colorful depth

**C**

**Classic** - Calm and orderly.  
Room for creativity

## BOEN Herringbone Click

Herringbone is an eye catching element that makes the floor stand out. We are happy to offer customers our 3-layer 138mm Plank now featuring the ability to install in the popular Herringbone pattern. This eye catching floor pattern is now possible and still features the best in market Click locking system that can be installed floating, giving an easy installation with high precision every time.

For more information about the assortment and technical information, please refer to page 6 in this Pricelist. And feel free to contact our sales team.

## New icons

We have introduced a new icon system to help you navigate faster within this new pricelist. This is a summary of what they mean:

This icon indicates our veneered skirtings. More information on page 38.

This icon indicates our skirtings made from parquet. More information on page 39.

"Available as plank" - indicates, that this certain product is also available in plank format.

"Available as 3-strip" - indicates, that this certain product is also available in 3-strip format.

This icon indicates a new product that is introduced in 2019.

## Stair nosings

Inspired by the Japanese folding technique Origami, our new stair nosing profiles perfectly combine precision, stability and toughness.

1. Stair nosing profiles are made from parquet boards
2. Available for all our floors and colours
3. Outstanding edge strength
4. Fits all types of stairs
5. Edge bands for open stairs

Please check page 41 for more detailed information.

# Traffic

12,5 mm

- ▶ The particularly wear-resistant 1-strip parquet flooring, with a top layer of approx. 5.5 mm is ideal for high-traffic areas, such as shops, restaurants, public buildings, etc.
- ▶ Floor heating systems: very suitable.
- ▶ Performance classification (detailed info on page 46): 3
- ▶ Fire protection classification: Cfl-s1.

Dimension:  
12.5 x 70 x 470 mm  
Top layer: ca. 5.5 mm  
Bottom layer: 7.0 mm spruce

## Boflex

- ▶ The premium area-elastic floor system for high level performance. With unique progressive shock absorption, Boflex offers uniform performance for adult professionals as well as young athletes. The construction can withstand an almost unlimited weight load and is extremely stable.
- ▶ Floating installation on even sub-floor, e.g. screed.
- ▶ Top layer BOEN parquet flooring with double tongue and groove profile and bottom elastic strips.\*

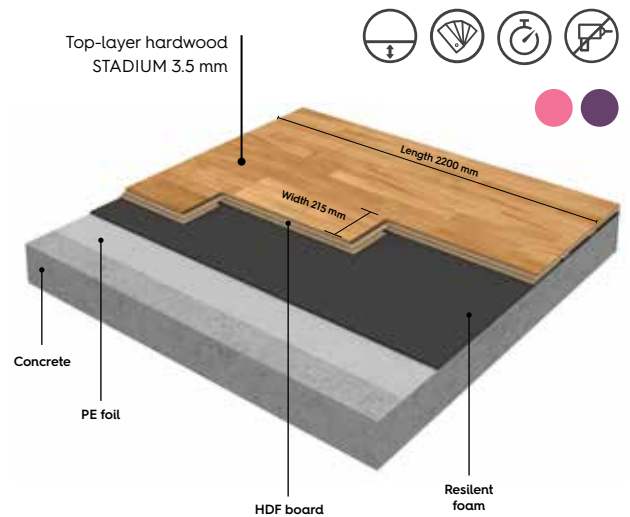

- ▶ Boflex Stadium Construction height: 28.0 mm  
Dimension: 28 x 137 x 2200 mm  
Top layer: ca. 3.5 mm
- ▶ Boflex Olympia Construction height: 30.0 mm  
Dimension: 30 x 137 x 2200 mm  
Top layer: ca. 5.5 mm

## Actiflex

- ▶ When flexibility and comfort is key, and you need a quick turnaround when renovating, Actiflex is the right choice. It is easy to extend, pick-up and relocate.
- ▶ Actiflex is an area-elastic sports floor that guarantees flexibility and comfort.
- ▶ Can be installed on a flat, firm and self-supporting subfloor or an existing floor.
- ▶ Quick and easy installation with the BOEN X-press Clic joint locking system.

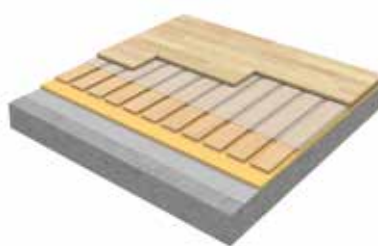

- ▶ Actiflex Stadium Construction height: 29.0 mm  
Dimension: 21 x 215 x 2200 mm  
Top layer: ca. 3.5 mm

The articles listed above are available from stock. There are two elements in one box. We can only deliver complete boxes.

- Various options of stair noses are available on request:**
- Stair nosings can be delivered from all Boen colours and surfaces, except for hand-crafted products.
  - Stair nosings made from Finesse, Maxi, Traffic, Chalet/Chaletino.
  - Stair nosings from products with Tongue/Groove profile.
  - All stair nosings can be produced with Tread inlays for improved slip resistance.
  - For parquet items in Castle (209 mm) dimension, we can produce stair nosings with wider tread.
  - We are able to supply matching edge bands to all stair nosings. Edge bands are delivered as separate pieces and need to be applied at the construction site.
  - Dimensions of edge bands: 3.5 x 700 x max. 100mm. Edge bands are 4V beveled.
  - Minimum order quantity for non-stock items: Four pieces.
  - All non-stock items are subject to individual pricing. Confirmed orders cannot be cancelled.

**\*BOEN performance classifications:**  
Depending on the field of application of our parquet floorings it is subject to different stress and wear. The Brinell hardness of the wood, the width of the boards, the structure, the thickness of the top layer as well as the surface treatment (sealing or oil treatment) are significant for the stability and durability of your flooring.

**Performance classification 1 = normal**  
Hardwood floors in living areas subject to normal usage. Exception: Wet areas and entrance areas.

**Performance classification 2 = medium**  
Hardwood floors in living areas, in administration, meeting and conference areas, kindergartens, consulting rooms etc. subject to average usage.

**Performance classification 3 = heavy**  
Hardwood floors in heavily frequented areas such as shops, restaurants, entrance areas, schools, conference halls, dance halls, etc.

**2V bevel:**  
Bevel on longitudinal side of the board (total of 2 on one board).

**4V bevel:**  
Bevel on all 4 sides of the board.

# Surfaces

***BOEN places considerable emphasis on protecting the environment during all phases of production. Neither lacquer nor oil emit gases which are harmful to humans or to the environment. BOEN offers its customers a wide range of surface finishes.***

## ***Live Matt lacquer***

This 6 layer Live Matt sealing with a very low gloss level makes the surface look "as oiled". A natural look combined with the advantages of a scratch-resistant finish.

## ***Live Natural oil***

Live Natural is a natural surface treatment containing oils such as sunflower, thistle or soya bean oil as well as naturally occurring waxes (carnauba, candelilla). Deep penetration of the oil into the wood is ensured by two-time application on a custom-made production line. The wood pores are saturated, and drying takes place completely naturally in the open air during a process known as the Air-Plus Process. The floor has extremely good protection properties against liquids.

## ***Live Satin lacquer***

Very hard-wearing factory-applied 6 layer silk finish considerably reduces the care requirements and increases the durability of the parquet floor. Live Satin is cured by UV light and does not emit any dangerous chemicals or gases.

## ***Live Pure lacquer***

Live Pure is the new innovative product development from BOEN: Oak planks with Live Pure surface treatment have a very natural look with ultra matt finish and very good protective characteristics. Live Pure protects the floor from dust, dirt and liquids thanks to a special treatment applied to the surface which leaves the look of the hardwood floor smooth, clear and naturally light - almost like untreated wood.

**Protected by Bona**  
Live Satin and Live Matt  
Lacquers are supplied by Bona.

# BOEN gradings

Visit our virtual product finder to get a better impression of the gradings.

[boen.com/products](https://boen.com/products)

**Wood is a natural product. Some types of wood – beech, for example – have a relatively calm grain. Others, like oak, are rich in structure, with a spectrum of calm to rustic. We offer a wide selection for you to choose from.**

## CALM

Consistent growth; only small knots; standing or lying year rings.

## LIVELY

Natural grading with small to medium knots; a limited spectrum of colours due to sapwood.

## RUSTIC

Structure and vivid growth; larger knots; sapwood and heartwood; a rich spectrum of colours.

	CALM	LIVELY	RUSTIC
<i>Adagio, Select</i>	████████████████████		
<i>Andante, Nature</i>		████████████████████	
<i>Finale, Concerto, Contract, Basic</i>		████████████████████	
<i>Animoso, Bellevue, Country, Vivace, Rustic, Traditional</i>			████████████████████
<i>Marcato, Baltic</i>			████████████████████
<i>Vivo, Canyon</i>			████████████████████

**Wood is a product of nature** – each tree has its own structure and individual colour combination. An image or a sample will therefore never be able to give you a complete picture of the finished floor. Please also note that the colour may change when exposed to light. As a guideline, darker wood species will get a more golden tone, whereas lighter species will become slightly darker. Cracked knots are filled with putty, so small gaps between the putty and wood may appear.

# Make sure you enjoy your hardwood floor for a long time to come

*Our floor is made of natural materials, and therefore it is affected by climate and surroundings. We make sure your floor is ready to meet all the challenges that everyday life has to offer, but also the changing climatic conditions we have year round.*

## BOEN Quality

We produce parquet flooring with top level of quality. With a monitoring system that checks every aspect of production, we are so sure our production meets the highest standards of quality that we give a **25-year warranty**.

Please check our website at [boen.com](http://boen.com) for complete information.

First Aid

## First aid for your floor

For scratches or marks, special repair sets are available.

- More information can be found at [boen.com](http://boen.com)

If the surface of your floor has lots of visible marks on it after a number of years, it can easily be sanded and re-sealed or oiled. Contact your hardwood floor installer.

## Always a good choice: 3-layer parquet flooring

### 1 Top layer

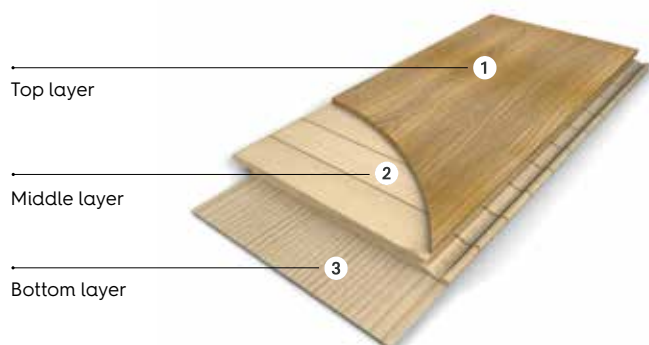

Environmentally friendly use of fine woods only for the top layer. Did you know that six 3-layer hardwood floors can be made from one solid wood floor?

### 2 Middle layer

Carefully selected strips made of spruce, with standing or half-standing year rings, offer high dimensional stability.

### 3 Bottom layer

The underlay of spruce veneer is manufactured from one piece and allows stable back pull.

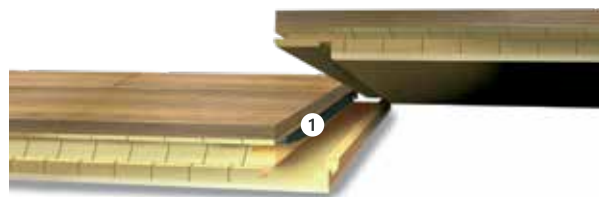

Click System

## BOEN 5G Click locking system

Take advantage of the BOEN 5G Click - the rapid locking technology.

Best choice for floating installation.

- A quicker and easier way to install single boards without tools.
- Significantly reduces installation time.
- The clear "click" sound lets you know when installation is complete.
- Also suitable for full-surface gluing onto the sub-floor.

1. BOEN 5G Click: Every single board can be pressed down individually. Clear "click" sound confirms that the board is installed properly.

# Environment

**Hardwood flooring is a natural product. As a company that works wood, BOEN has been entrusted with upholding an important legacy.**

BOEN flooring is a product of natural materials. Respect for nature and for the requirement of environmental sustainability is reflected in our processing and management of raw materials. BOEN is constantly seeking methods for processing the raw materials in the most gentle and sustainable manner possible.

The raw materials processed at BOEN come from sustainable forests and other controlled sources. Beyond that, the BOEN factories have implemented a chain-of-custody system in accordance with the FSC™ standards. The Forest Stewardship Council™ is a well-known forest certification scheme.

BOEN's production methods are noted for their quality and excellent use of resources. The timber is quickly transported to the sawmill and cut, so that the drying process

can start as soon as possible, thereby avoiding discoloration. The wood is dried under monitored conditions. This allows us to guarantee the highest degree of stability for our floors.

Multi-layer hardwood flooring provides considerable savings in resources compared to solid hardwood flooring. The use of hardwood is limited to the wear layer. Three-fifths of our parquet is based on spruce and pine woods. Sawn and planed chips are by-products that occur naturally and are used in the factory's heating systems for the drying kilns, hot water supply and fuel pellets.

The German Blue Angel label has been awarded to BOEN, confirming that our manufacturing methods produce minimal amounts of waste gas and consequently contribute to a good interior climate.

## Our Certificates

Across the globe, **the Forest Stewardship Council™, FSC™**, promotes an approach to forest management that is environmentally appropriate, socially beneficial and economically viable. The companies within the BOEN Group have implemented a

chain-of-custody system in accordance with the standards of the FSC and are able to supply FSC-certified products. BOEN supplies products with the FSC Mix label. We hold the following licences: BOEN Bruk (Norway) FSC® C051117,

BOEN Parkett Deutschland (Germany) FSC® C101713, BOEN Lietuva (Lithuania) FSC® C021510, BOEN UK FSC® C047288, BOEN US FSC® C095158. [www.fsc.org](http://www.fsc.org), FSC – The mark of responsible forestry.

**The Real Wood** logo is administered exclusively by authorised manufacturers belonging to the European Federation of the Parquet Industry (FEP). The decision in favour of real wood has ecological benefits.

**The Rainforest Alliance** works to conserve biodiversity and ensure sustainable livelihoods by transforming land-use practice, business practices and consumer behaviour. [www.rainforestalliance.org](http://www.rainforestalliance.org)

[www.blauer-engel.de/uz176](http://www.blauer-engel.de/uz176)

Products with the **Der blaue Engel (Blue Angel)** seal of quality contain very low levels of emissions in order to ensure a healthy indoor climate.
